Well done. I LOVE reading and anywhere I can read as freely as I enjoy it, whether that's 5 books a day or 150 a month... An e-reader be it Libby or my Kindle or both... they allow me to read my fill regardless of my inability to always get to the library or to search stacks at bookstores. I can be comfortable in my own place."- Margaret M., Google Play™ Store review "I feel like I just re-found my love for the library again. This app helps re-connect with these amazing and free resources back into reading books but also magazines. I know the library is free but I didn't know what an array they have for electronic resources. It is great and helpful."- J-Phx, Apple App Store review "I am dyslexic and old enough that is was never diagnosed in school. This is such a simple way for me to enjoy books I would never be able to read.I have been listening to the CDs for a long time. But having it on my phone allows me to listen whenever and wherever. Also this is one of the more efficient apps I have come across. Thank you Libby."- Brezzy307, Apple App Store review"This app is intuitive, helpful, and like having a librarian in my pocket. While I will take any opportunity to visit a brick and mortar library, it isn't always possible. This app gives me all the bok love I need when I am away from a real library. Keep up the great work."- Shira M, Google Play™ Store reviewThe library is often-overlooked public resource (and some are modernizing quickly), but OverDrive brings it back into the fold with the newly redesigned, Libby.Listen up, the library is cool and we all secretly know it.
